

Otumoetai Intermediate

2010

Dear Parent / Caregiver

Thank you for considering your child to be part of a Multimedia Laptop Class during his/her time at Otumoetai Intermediate.

Multimedia Laptop Classes

Edtech has been a chosen IT partner by Otumoetai Intermediate for 5 years and is a leading ICT Systems Integrator, working with over 650 schools nationwide. Our services to NZ schools range from ICT consultancy and strategic planning, through to supply of hardware and software, training, Online learning solutions, Specialist ICT Engineering Expertise and Managing Student Laptop Programmes. The people in our team, who look after our NZ schools come from teaching backgrounds and so understand the needs of 21st century learners and the principles behind 21st century education.

Edtech recommend that parents and caregivers work closely with the school's chosen IT Providers to help purchase the appropriate laptop through their laptop purchase programme. Our experience with managing and supporting other laptop programmes in NZ Schools attests to the high value of standardisation in terms of the quality of support and the learning experience. We find it in our students' best interest to have them use the same laptop as their peers and administrators.

Edtech researched offerings from several vendors and concluded that the HP and Toshiba models offer the best value, technology, Warranty Service and pricing for our community. Edtech believes that students need to be using a quality grade laptop that stands the test of time, and be supportable while attending Otumoetai Intermediate.

The models recommended by Edtech are generally meant to be used by businesses, and as such offer build quality and uniform sets of components and software. These are usually mail-ordered by businesses (online or via telephone).

We are here to help so just ask. Come along and talk to us at the School Information Evening. Please feel free to contact me if you have any queries regarding laptop choice and finance options available to you.

Sandy Bornholdt

Edtech Education Account Manager for Otumoetai Intermediate
