Important Terms Used in This Document:

The abbreviation 'ICT' in this document refers to the term 'Information and Communication Technologies'

'Cybersafety' refers to the safe use of the Internet and ICT equipment/devices, including all mobile phones and other mobile devices.

'School ICT' refers to the school's computer network, Internet access facilities, computers, and other school ICT equipment/devices. Devices using the school network include both school owned devices as well as student owned devices.

The term 'ICT equipment/devices' used in this document, includes but is not limited to, computers (such as desktops, laptops, chromebooks, mobile phones, smart watches, portable gaming devices, tablet devices), storage devices (such as USB and flash memory devices, CDs, DVDs, iPods, MP3 players), cameras (such as video, digital, webcams), all types of mobile phones and devices, gaming consoles, video and audio players/receivers (such as portable CD and DVD players, apple TVs), and any other, similar technologies as they come into use.

'Objectionable' in this agreement means material that deals with matters such as sex, cruelty, or violence in such a manner that it is likely to be injurious to the good of students or incompatible with a school environment. This is intended to be inclusive of the definition used in the Films, Videos and Publications Classification Act 1993.

SECTION A : INTRODUCTION

Our intent is for Ōtūmoetai Intermediate School staff, students and wider community to be responsible and productive users of information and communications technologies in the school and society.

The overall goal of the school in this area is to create and maintain a cybersafety culture, which is in keeping with the values of the school, and legislative and professional obligations. This responsible use agreement includes information about your obligations, responsibilities, and the nature of possible consequences associated with cybersafety breaches, which undermine the safety of the school environment.

All students will be issued with an agreement and once this is signed and returned to the teacher, students will be able to access the school ICT network with their devices or use the school's equipment/devices.

The school's computer network, Internet access facilities, computers and other school ICT equipment/devices are for educational purposes appropriate to the school environment. This applies to all ICT equipment used on the school site.

The school will monitor traffic and material sent and received using the school's ICT network. The school will use filtering and/or monitoring software to restrict access to certain sites and data, including email.

The school will audit its computer network, Internet access facilities, computers and other school ICT equipment/devices or commission an independent forensic audit if needed.

SECTION B : RULES TO HELP KEEP STUDENTS CYBERSAFE

These rules apply to all internet capable devices used in the school.

1. I cannot use ICT equipment at school until my parent/s have signed this agreement form and a completed copy has been returned to my teacher at school.
